Figure 1

Every call that is made to the Helpline Center is tracked and noted by type (fig. 1). A majority of calls received are information inquiries (last night’s lottery drawing, room reservations, etc.).

May 2017 saw a decrease in intake calls, from 88 in April to 82 in May. *The calls received by the HelpLine Center labeled “Lottery” and “Casino” are from individuals seeking general information specific to those activities, not seeking help for a gambling problem as a result of participating in them.*

Figure 2

Intake Calls YTD 2017

Intake calls represent the calls made by individuals who are suffering from a problem gambling issue, have relapsed, or who know someone with a gambling problem. Callers are provided resources, such as Gamblers Anonymous (GA) meeting information and/or trained counselor contact information. For the month of May 2017, the total number of intake calls was 82 (fig. 3).

Figure 3

One of the primary pieces of information collected from our Helpline Specialists during intake calls is the most problematic form of gambling that a caller, or subject, is engaging in. Slots and other casino based games were the activity named during the majority of calls in May 2017 (fig. 4). This can likely be explained by the promotion and high visibility of the Helpline number throughout each of the 12 casinos that currently operate in Pennsylvania.

Figure 4

Pennsylvania Helpline for Compulsive Gamblers

Philadelphia and Allegheny counties are consistently the top two counties that helpline calls come in from, this month accounting for over 30% of intake calls. In May 2017, the Helpline saw Montgomery, Bucks, and Lehigh counties make up an almost additional 20% of intake calls.

In November 2015, the Council on Compulsive Gambling implemented a ‘chatline’ and ‘text for help’ option into the existing Helpline Services. Like the Helpline, the chatline and text options are available 24/7 and provide an additional level of anonymity for those who may not be ready to physically verbalize the issues they are experiencing. Since the program began, we have seen continued use of these services and are pleased to offer another available resource for individuals seeking assistance.
